

Reference Plant

RDF Power Plant Weener / DE

- 85 t/h steam
- External vertical Eco pass;
W 6 x L3.2 m; 8 Bundles;
Pitch H / V / tube; bundle height
80 / 80 / 31.8 mm; 1.6 m
- 1 x EG10, 12/2011, installed at
external economizer
- Injection of absorption media (slaked
lime) at the inlet of the economizer
- Very good cleaning effect
- 3 of 8 sootblowers stopped
- Sootblowing interval was prolonged
by approx. factor 3; approx. 15 t/d
steam saving
- Additional cleaning effect in tail-end
bundles
- Plant supplier: Baumgarte Boiler
Systems
- Operator: Weener Energie GmbH &
Co. KG
